Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The Assignee of the above-identified application, Nuvera Fuel Cells Europe S.r.l., petitions the Commissioner of Patents and Trademarks to accept the filing of the above application under the provisions of Rule 47(a) since the inventors Eduardo Trifoni and Matteo Lenardon have refused to execute the application. The inventors Daniele Facchi and Luca Merlo executed the original declaration filed with the application and Applicants are submitting herewith another declaration executed by the inventor Paolo Binelli. Also submitted is the assignment executed by the latter inventor.

As can be send from Ms. Tuosto's declaration filed herewith, she mailed the above application and assignment to Eduardo Trifoni at his home address and then contacted him by telephone on July 30, 2004 with a request for the return of the executed documents. She followed up by telephone on September 8, 2004, October 22, 2004 and

November 19, 2004 for the return of the executed documents without success. With a letter of November 27, 2004, Eduardo Trifoni returned the assignment unsigned by a letter filed herewith and an English translation thereof indicating that he was refusing to sign the documents without adequate compensation.

Anna Tuosto on September 9, 2004 mailed the declaration and assignment to Mateo Lenardon for execution, a copy of which is enclosed. Ms. Tuosto spoke to his mother by telephone on October 11, 2004 about his returning the documents and left a message on Mr. Lenardon's answering machine on October 19, 2004 asking for the return of the documents. She spoke to him by telephone on October 20, 2004 asking him to return the executed documents during which conversation he said he wished to think the matter over. To date, he has never returned the executed documents.

Mr. Eduardo Trifoni and Mateo Lenardon executed on March 6, 2003 after leaving Nuvera Fuel Cells Europe S.r.l. an authorization to file before WIPO the PCT application designating all of the countries including the United States, a copy of which is enclosed herewith. The two inventors were employees of Nuvera Fuel Cells Europe S.r.l. at the time of filing the Italian priority application on June 17, 2002 and their employment and affiliation with Nuvera Fuel Cells Europe S.r.l. had been terminated. However, in accordance with the Italian law, the rights of an employee/inventor belong to his employer and accordingly, all rights of said inventors in the invention described and claimed in the international application belong to Nuvera Fuel Cells Europe S.r.l.

It is requested that the Patent Office accept the present application based on the above situation without the signature of Mateo Lenardon and Eduardo Trifoni.

Applicants are submitting herewith PTO Form-2038 authorizing the \$130.00 petition fee and the \$130.00 completion fee. Therefore, granting of the acceptance of the application under the provisions of Rule 47(a) is requested.

Respectfully submitted,
Hedman & Costigan

Caro Matteo

Devo disturbarti di nuovo per la firma dei documenti. Si tratta di due domande di brevetto: il caso 198 cosiddetto concetto Toyota e il caso 201 sul sistema iniezione acqua diretta utilizzando fori calibrati nel piatto bipolare. I documenti sono per l'estensione negli USA, Brasile e Canada (avevi già firmato i documenti per la domanda internazionale).

Ti mando una busta perché tu mi possa restituire i documenti.

Per qualsiasi dubbio, chiamami pure.

Affettuosi saluti

Caro Eduardo

Devo disturbarti di nuovo per la firma dei documenti relativi alla domanda di brevetto di cui ti allego la pubblicazione. Ti mando la solita busta per la restituzione. Purtroppo una prolungata permanenza in questa ditta mi ha portato a comportamenti di tipo compulsivo, per cui ho messo tutti i bigliettini sui documenti. Spero non offendano troppo la tua intelligenza. Qui senza le freccette non firma nessuno ma quelle le ho omesse per te. Immagino che troverai dove firmare.

Credo che tu sia più aggiornato di me sulle novità NUVERA e non. Per quanto mi riguarda, sono incasinata come sempre, aiuti zero ma resisto.

Non riesco a trattenere un moto d'invidia per te che vivi vicino al mare, per non parlare dei dintorni. Io vivo in apnea tutta la settimana per rifarmi a Rapallo (sarebbe bellissima con circa una decimo delle abitazioni ma non potendo pretendere l'eliminazione di quanto esteticamente sconveniente e avendo comprato una casa del periodo della rapallizzazione, ben venga quello che c'è). Dopo queste massime di filosofia decrescenziana, ti saluto con tanto affetto.
